

Spring 2015 Graduate Seminar

BIOL 5174: Work/Life Balance in Academia

CRN 19232, 1 credit

Wednesday, 230-345pm, Derring 3094

Dr. Lisa Belden (belden@vt.edu)

This discussion-based graduate seminar will address some of the challenges facing academics as we try to balance our academic positions with other important life responsibilities. We will be primarily discussing family-related issues, although most of the topics we will cover apply broadly to "life" outside of work.
